# Biography

*"A rare breed of musical mastermind."*

Melvin Johnson is a Houston-based composer, pianist, educator, music director, and full-service entertainment producer whose career defies easy categorization. Equally at home behind a concert grand piano, conducting a full ensemble, directing a stage production, or producing custom live music experiences for corporate audiences of thousands.

His pioneering **Electro-Akoustic** approach fuses electronic soundscaping, live instrumentation, and original composition into a sound wholly his own — spanning the intimate jazz of the Quartet, the 20-voice choir of the Vibe Factory, the maximum-impact Super-Mega Band, and the full entertainment services of Sincerely Yours Music & Production.

As **MelJOnKeys**, he is available for hire as Music Director for artists, stage productions, and recording sessions. His albums *Delayed Flights* and *Little Red Wagon* have earned recognition as the work of a composer of real substance, with *The Synthetic Dream* set to be his boldest work yet.
